Linking Affiliations to the Author

Each Affiliation has a number assigned to it, known as the “Affiliation Number”.

This Affiliation number allows multiple authors to reference the Affiliation without having to re-enter the information for each author. All you need to do is assign the Affiliation Number to each Author:
As you can see from the above images, the first author is linked to the first affiliation by entering the number in the Affiliations box for the Author.

If you set a number for the affiliation that does not exist, you will see the following error in the review panel:

```
Review Submission
Below is a summary of your completed submission. Any sections that are still required to be completed for submission are noted in red.

Test
Brand R
1 Centium Software, Brisbane NSW, Australia

Invalid Author Affiliations Number for Author 1
```

If you put in an invalid format for the author affiliation (such as the name of the organization rather than the affiliation number, it will show up as the below in the review panel:

```
