

Keynote Presenter – Matteo Iannacone, M.D.

Matteo Iannacone obtained a M.D. degree from the University of Milan, Italy, followed by a residency in Internal Medicine and a Ph.D. in Immunology from Vita-Salute San Raffaele University in Milan, Italy. He trained as a postdoctoral fellow at The Scripps Research Institute, La Jolla, CA and at Harvard Medical School, Boston, MA. Since 2010, he directs the Dynamics of Immune Responses Laboratory at the San Raffaele Scientific Institute in Milan, Italy. By combining cutting-edge *in vivo* imaging techniques and advanced animal models, Matteo has made fundamental contributions to our understanding of the immune response and viral-induced immunopathology. His work has been published in the most important scientific journals (including *Nature*, *Cell*, *Science*, *Immunity*, *Nature Medicine*) and he holds 11 international patents. He has received numerous awards for his work, including the Armenise-Harvard Foundation Career Development Award, an ERC Starting Grant, the Young Investigator Award from the European Association for the Study of the Liver, the EMBO Young Investigator Award, an ERC Consolidator Grant, and the Chiara D'Onofrio Award. As of February 2020, his work has received more than 5400 citations with an H-index of 37.
